#### **DETAILED ACTION**

The preliminary amendment of 5/29/2003 was not matched with the application prior to the 10/2003 Office Action. That Action is vacated and replaced by this Action.

Claims 1 and 60-72 are under consideration.

## Specification

The disclosure is objected to because of the following informalities: The specification is not in compliance with 37 C.F.R. 1.821-1.825, as not all sequences are identified by their SEQ ID NO: (e.g., page 80, lines 13-17 of the 12/10/2001 specification).

Appropriate correction is required.

#### Claim Objections

Claims 65 and 70 are objected to because of the following informalities: an "or" should be between "licheniformis" and "Bacillus". Appropriate correction is required.

Claim 71 is objected to because of the following informalities: "claims" in line 2 should be "claim". Appropriate correction is required.

Claims 64 and 69 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n)

Claim 72 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. Further, a

Application/Control Number: 09/469,200

Art Unit: 1653

multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n).

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 68, 69, 70 and 72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 68 is confusing as it recites "the recombinant expression vector of claim 66 (which comprises the nucleic acid segment of SEQ ID NO:1), and "the nucleic acid segment of claim 1" (which encodes the synthase of SEQ ID NO:2). It is not clear whether the nucleic acid segment must comprise SEQ ID NO:1 or merely encode SEQ ID NO:2.

Claim 69 depends, in the alternative, from itself, thus rendering it indefinite.

Claims 70 and 72 are included in this rejection as they depend from claim 69 and do not clarify the ambiguity.

### Conclusion

An isolated and purified nucleic acid segment encoding the *S. equisimilis* hyaluronate synthase of SEQ ID NO:2 or comprising SEQ ID NO:1 is deemed free of the prior art, as are constructs containing the nucleic acid.

Claims 1, 60-63 and 66 -67 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriele E. BUGAISKY whose telephone number is (571) 272-0945. The examiner can normally be reached on Tues.- Fri 8:15 AM-1:45 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher SF Low can be reached on (571) 272-0951. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-0700
